3(a). Rental. You may not rent or lease the Software Product.

You must transfer the entire Software Product (including all component parts, the media and printed materials, any upgrades, and this Agreement), and the recipient must agree to the terms of this Agreement. If the Software Product is an upgrade, any transfer must include all prior versions of the Software Product. You may not transfer a "Not for Resale" or "Demo" product license. The new owner must contact Good's Technology Services to be eligible for any support or upgrades.

MISCELLANEOUS. This document constitutes the entire agreement of the parties regarding the subject matter herein. All rights not expressly granted to you are retained by Good's Technology Services. The failure of Good's Technology Services to enforce any right or claim against you shall not be deemed a waiver of such right or claim or any other right or claim hereunder. No modification to this Agreement shall have effect unless in writing and signed by the authorized representative of the parties. If any provision of this Agreement is ruled invalid, such invalidity shall not affect the validity of the remaining portions of this Agreement.

## Exhibit 1

Good's Technology Services grants you a personal, non-exclusive Limited License to use a copy of the Software Product for one concurrent user. For additional concurrent users to access the software, you must acquire additional licenses. You may have as many copies of the Software Product in use as is specifically authorized in the documentation or your sales invoice. Except as stated in section 1, Good's Technology Services grants you a non-exclusive Limited License to use one copy of the Software Product up to the total number of licensed concurrent users. Licenses for StoreLIVE! are concurrent user licenses. That is, if you have StoreLIVE! installed on 3 computers (devices), and these 3 computers are accessing the StoreLIVE! system at the same time, you will need to have 3 licenses. In another example, if you have StoreLIVE! installed on 5 computers, but one of these computers is a notebook computer and is never utilized at the same time as one of the other systems, you would only require 4 licenses.
